McKnight still in Tory race

Minden resident Larry McKnight has reiterated his intention to seek the Progressive Conservative nomination for the riding of Victoria-Haliburton in the next provincial election. McKnight made his intentions known in a press release issued Monday.

The man had indicated last fall that he was willing to stand for the nomination. At that time speculation was running high that the then Premier William Davis would call an election. The leader of the Conservatives surprised many observers and, rather than sending the province to the polls, announced his own retirement.

The change in direction meant that McKnight was

forced to put his bid for the local candidacy on hold.

According to his press release, he was active during the leadership campaign working as a co-ordinator for the Frank Miller effort in this county. McKnight notes in his press release, "At the convention, I was part of the 'tartan' strategy team" a group of Miller supporters.

McKnight has indicated that he is pleased with the choice of Frank Miller as the new leader of the PC's. "With his business background, Mr. Miller is the right choice to lead this province," McKnight said. He predicted that both the Liberal and NDP parties

Snow on ground February 28 1984	32 cm	12.5 in
Total snow to February 28	214 cm	84 in
Days clear or mostly so	7	
Days with rain or snow	16	

It is perhaps fortunate that February was a short month because it wasn't too pleasant. Except for a sunny period between February 5 and February 11, it was either snowy or rainy. It was warmer than last February with more snow and rain.

Thanks to Bob Penfold for keeping records while Jane and I got away from it all. No snow in Florida.

Miriam Barnes (Miss Automobile) models the latest haute couture in a spring fashion show "Pollution '85" at Minden United Church last Wednesday. For another picture see page 24.

Beer strike closes one hotel - others affected

The beer drought of the spring of '85 is only two and a half weeks old but it has already forced the closure of at least one beverage room in the county.

At eight o'clock on Saturday evening, the Dominion Hotel in Minden sold the last bottle of beer in stock and until a fresh supply of beer is delivered to

the hotel, the doors to the establishment will remain closed.

Just up the street, the Rockcliffe Tavern still has a dwindling supply of draft and bottled beer but some of

the more popular brands have been sold out.

Like many beer drinkers in the county, the owners of taverns stocked extra supplies of the suds in anticipation of the strike, but the increased demand

across the province limited the size of the orders.

When rumours became reality and the doors of the Brewers Retail outlets were locked, there was a rush on the LCBO stores that stock limited supplies of domestic and imported brands.

The Kinmount outlet sold the entire stock of 300 cases in the first two days after the strike began.

The Minden outlet sold out the supply of domestic

beer in two days and within a week the imported beer was also sold out.

Beerdrinkers in Haliburton found the shelves in the local outlet bare when the store opened on Wednesday morning.

Deprived of their beloved brew, many beerdrinkers are turning to other liquid refreshments.

At the Kinmount outlet, total cash sales remain the same but customers are now buying wine and liquor. There has been an increase in sales in Minden and Haliburton as private supplies of beer run out.

For the true aficionado, beer making kits are available and according to Wayne Henderson, owner

of The Storeroom Natural Food store in Minden, sales of the kits have been brisk.

There may be some relief in sight. Tractor trailer loads of beer are crossing the border from the United States bound for the LCBO warehouses in Toronto and

extra supplies are being flown in from Europe. Some of the imported beer will end up in LCBO outlets in Haliburton County as well as local taverns, but supplies, which are expected to arrive on Thursday, will be limited and will cost more than domestic beer.

Juveniles advance to Ontario semi-finals

The Minden Monarch Juveniles have advanced to the Ontario semi-finals after winning the fifth and deciding game in the quarter finals on Sunday in Erin.

Minden took the first two games in the series and it appeared as though they were on the way to a three game sweep, but Erin rebounded winning at home on Sunday, March 3.

The fourth game was played in Minden and the large crowd of supporters witnessed one of the few Monarch losses this season.

Erin jumped to a two goal lead early in the first period before Barry Boice put the Monarchs on the board with an assist from Boomer Stamp. Erin added another goal to make it 3-1 but with three seconds left in the period, Bernie Upton scored for Minden on an unassisted goal to give the team a psychological boost.

However, Erin kept on rolling and scored two more goals in the third period before Lennie Johnston narrowed the Erin lead to 5-3.

The Monarchs put on a lot of pressure in the remaining ten minutes of the period but were unable to catch up and the series was suddenly tied at two games apiece.

The Monarchs had their backs to the wall when they travelled to Erin on Sunday. The players knew that if they lost the game, it would be the end of their best season since 1978 and they were also aware that some of the fans in Minden had written them off.

However the players were

keyed up for the game and the team produced their finest effort this season.

Boomer Stamp, Scott Hamilton and Barry Boice scored a pair of goals each in the victory with a lot of help from Tim Wood who assisted on four goals.

A minute and a half into the first period, Scott Hamilton knocked in the all-important first goal after taking a pass from Barry Boice and Tim Wood. Thirteen seconds later Erin tied the score at one all.

Less than two minutes

later Boomer Stamp blasted in a shot on a pass from Tim Wood.

After a quick start by both teams the score remained unchanged until the three minute mark of the second period when Scott Hamilton drove in his second marker with help from Gord Wood and Tim Wood.

With less than a minute left in the period, Erin connected to make it 3-2 for Minden.

The Monarchs continued their strong play in the third period. A combination of

aggressive forechecking and excellent puck control resulted in another goal from Barry Boice assisted by Bernie Upton.

Half way through the period Boomer Stamp made it 5-2 on an assist from Tim Wood. But with four minutes left in the game, Erin proved they were not conceding defeat as they scored their third goal.

However, the rest of the game belonged to Minden and in the dying minutes,

(more on page 8)

Tires tested at ice track

The oval ice track at Minden fairgrounds was transformed into an automobile test track last Wednesday and Thursday when the Nissan Automobile Company conducted a series of tests on all weather radial tires.

Technicians from Tokyo, Japan, Los Angeles, California and Ann Arbor

Michigan tested tires manufactured by Bridgestone, Michelin and Tokohama.

Wray Winger, Technical Services manager of Nissan, Canada explained that the track was chosen for the tests because it duplicates conditions found on secondary roads during a Canadian winter but it is free of traffic. The tires

being tested were all high performance tires for front wheel and rear wheel drive cars.

"These tires are excellent under wet and dry conditions," Winger said. "However in Canada we need an all season radial tire, especially because of the cost of changing tires in the spring."

Forty-eight different sets of tires were tested for acceleration, braking, lane

As another wheel is rolled into place, technicians from Tokyo, Japan prepare their cars for the next test session.

changing performance and overall manoeuvrability.

As well as conducting time and distance tests, the drivers were asked to rate the handling characteristics of each set of tires with particular emphasis on the performance of the cars under controlled skids.

"We are looking for a tire that gives the driver more control under a skid and allows to driver to quickly

regain control," Winger said.

He noted that the type or condition of tires makes little difference on glare

ice, but tread design and the type of rubber compound used in a tire has a significant effect on handling. Temperature also has an effect on handling.

Winger said that when the braking tests began Wednesday morning, the cars were able to stop within 28 metres but as the temperature rose, the stopping distances increased and by the end of the test, the cars travelled 80 metres after the brakes were applied before coming to a halt.

As a result of the tests held in Minden, Canadian drivers will soon be travelling on tires that up to now, have only been experimental prototypes.

This is the second time this year that the ice racing track has been used by other groups. According to track co-ordinator Tom Prentice, Bell Canada used the facility earlier in the season to instruct employees in skid control techniques.

will be scrambling to see which party forms the official opposition. He said he was confident the Conservatives would have no problem retaining the reins of power in the province.

No other candidate has officially announced his or her intention to seek the Conservative nomination in this riding. Previous PC candidate Dave Murray has been touted as being interested in another crack at the seat which is currently held by Liberal John Eakins.

The PC nominating convention is scheduled to be held March 30 at I.E. Weldon Secondary School in Lindsay at 1 p.m.

Constable Brian Ladurantaye attempts to extinguish a burning snowmobile found abandoned beside the Roman Catholic church in Minden on Saturday. The driver of the vehicle was located the following day and has been charged by police with three counts relating to the incident. See story below for details.

Snowmobile burns - man flees

A visitor to Minden who abandoned his burning snowmobile next to the Roman Catholic Church in Minden has been charged with three different violations. The incident occurred Saturday morning.

The man was riding the machine when it apparently burst into flames. The driver immediately hopped on the back of another snowmobile travelling in his group and disappeared, leaving the machine to be destroyed by the flames.

Police, and then the Minden fire department, arrived on the scene, but not in time to save the snowmobile.

The next day, police questioned a group of snowmobilers and were able to ascertain the identity of the owner and operator of the machine which had been

consumed by the fire.

Gerald Heikens, 20, of Stouffville has been charged with failing to report an accident, operating a snowmobile without insurance and operating a snowmobile without a permit.

Constable Mike Maybee is the investigating officer.

Man charged

A Lutterworth resident faces a series of charges following an incident during the weekend. The sequence of events began Saturday evening when 58 year old William Carrick was arrested and charged with impaired driving.

The charge resulted when the vehicle he was driving rolled over on Highway 35 south of Minden after striking a snowbank.

Damage to the vehicle was estimated at \$1500.

The man was released a few hours after being arrested.

Sometime later the Minden OPP responded to a

call directing them to the Carrick residence. While there, they discovered a cut-down .22 calibre rifle.

In addition to the

impaired driving charge, the man faces a charge of possessing a restricted weapon.

The man was taken to Lindsay jail following the second incident and was scheduled to appear for a bail hearing Tuesday (March 12.)

The investigating officer is Constable Bill Clendenning.

An opportunity

What is there to do? The cry is heard across the country this week as parents find themselves at home or the cottage with whirling dervishes, better known as children home on school break. As one of the letter on this page points out, there isn't all that much happening in the area to amuse youngsters and help take the pressure off harried parents.

There are a number of possibilities, but the pickings are slim. CHACE Place is Haliburton Village offers a different program each day of the week. In Minden, the municipality has laid on free skating at the arena on two Sundays in March.

There appears to be a golden opportunity here that is going missing. While merchants bemoan the exodus of population from the area during March break, you can hardly blame anyone for not sticking around when the options for entertaining a rowdy horde of youngsters is limited. One can understand the frustration of a parent who desires to bring the family to the cottage for the week for one last fling at winter activities only to find plans gone awry because of inclement weather.

By creating a number of programs to entertain various age levels, the county could attract visitors in greater numbers during his week rather than being, as some believe, on the deficit side of the equation.

It is, of course, too late for this year, but not too early to start planning for next year.

Don't waste it

We don't presume to tell the various sides in the current beer strike how to settle their differences, but we have one suggestion that might help ease some of the problems created by the present situation.

Brewer's Retail outlets throughout the province are now closed, while behind locked doors the suds are slowly aging themselves into oblivion. Why not allow licenced premises to replenish their supplies from these sources rather than waste the product now in stock? As well, holders of special occasion permits will find their fund raising efforts jeopardized by the lack of beer. Why not release their inventory to licence holders for the special occasions.

Editor:

Congratulations Minden, you've done it again! No activities for our children while they are on their spring break. The local theatre is even closed this year.

I don't seem to understand why the library can't have films, puppet shows, storytime, crafts, etc., when all it would take is some energetic high school kids to do the physical work and a smart committee member to put the program together. The cost should be minimal. We have a lovely new PUBLIC library that should be used by the PUBLIC. If CHACE Place can operate a program for free this week, surely we could put something together.

There is also no reason why the arena couldn't open its doors for public skating at least one day. I understand there is free public skating for three Sundays in March, why couldn't they have been during the March Break? Why couldn't they have public skating in the evening

for older kids? Or why couldn't they have brought the CKVR No Stars in for a matinee or evening show and the Recreation Committee could have made some money for their Plexiglass project?

It's the same story around here in the summer. Why can't we have organized sports for \$2.00 per child like Haliburton had last summer? Why can't we have a day camp like Stanhope has every year?

Can anyone on this existing council answer my questions? If not, you won't get my vote come November!

Where do our tax dollars go? Not to the roads for sure, but that's another story.

Mary McKelvey,
Minden.

P.S. I guess we'll vegetate in front of the "Boob-Tube" again this week!

Editor:

I feel that it is only fair that I reply to Mrs. Burk's letter addressed to Mr. Curtin published in the

February 27th edition of The Times in regard to her remarks "Some of the residents of the hamlet of Ingoldsby are getting a little tired of your constantly complaining, with your fallacies and half truths about the Ingoldsby Bridge."

Yes, I do agree that Mr. Curtin has much better "staying power" than the rest of us who share his concerns in regard to the new bridge at Ingoldsby. I am afraid that many, like myself, would rather give up fighting the bureaucracy than take the negative criticism Mr. Curtin has weathered.

However, I am sure that the large boat owners from Canning and Kashagawigamog Lakes will appreciate the fact that Mr. Curtin backed their efforts to ensure that the new bridge would have the same water clearance as the old one.

The many families who have used the safe sandy beach for years have NOT

(more on page 5)

Spring flush

Spring melt is quickly marching northward. Soon, the last vestiges of snow will remain only in the deepest woods. The rest will be on its way as those torrents which annually flush our rivers.

Roundly viewed as "dirty and threatening," this annual ritual is, in fact, biologically vital. Indeed, spring's melt brings a catharsis to the entire countryside.

The melt's progression provides to the soil abundant moisture - the very foundation upon which the growth spurt of plants (and in turn, animals) will depend. Nearly all of our wildflowers will utilize this, whether for spring blooming of woodland perennials or for early growth of field annuals. So will the trees - their annual growth will be virtually complete by late June, when the ground dries out.

outdoors

Federation of Ontario Naturalists

Equally important - but seldom recognized - is the importance of ponds, many of them temporary, created by the melt. Through both runoff and ground seepage, the melt transforms the countryside into a veritable mosaic of land, ponds and "edge." These "little areas" provide the breeding areas for countless invertebrates and amphibians, and in turn, the birds, mammals and other predators which need abundant food supplies to rebuild their emaciated, post-hibernation bodies or to feed broods of ravenous young. Even as the ponds are just melting open, over the next 1-3 weeks, spring peeper frogs will already be madly singing, calling mates to breed.

But the most important role is in the streams and rivers themselves. All year, silt washed from the surrounding countryside, slowly blankets the river bed, toward a state of 'cruddy monotony.' If left unchecked, it would bury spawning beds, coat rocks, smother vegetation and invertebrates and deprive a host of game fish and predators of the base upon which they depend.

Spring torrents flush, bubble and boil and eddy. They wash rocks, scour sand and fill pondings. The process restores variety and texture to the streamscape. Open gravel 'riffles', clean rocks. Barren tangles of soil-free roots at stream edge. Deep pools. And pockets of soft, gelatinous ooze.

Nowhere is this process more important than on spawning beds, here, the boiling, scours deep within

(more on page 7)

letters letters letters letters letters letters

(from page 4)

been so lucky. In spite of Mr. Curtin's efforts and many promises from the county, the new plan clearly shows the east abutment of the new bridge right on that sandy beach. The "random rip-rap" they plan to use for fill will likely ruin the rest. (This new plan is much different to what was promised last spring as an answer to the controversy.)

I certainly hope Mrs. Burk is correct in her estimate of property damage in the vicinity of the bridge. Work has already started in terms of cutting trees, etc. Time will only tell the answer as to how much each landowner will be affected.

I am sure Mr. Curtin hopes that he is proven wrong in this matter. He has fought for the concerns of many; both adults and children. I personally wish to thank him for his efforts. **Helen Newton, Ingoldsby.**

Editor:

It is sad that after the debate over the Ingoldsby Bridge was commenced with such civility and patience on all sides that Councillor Pat Burk of Anson, Hindon and Minden Townships should in her open letter to you and me in your newspaper, set such a disagreeable and hostile tone.

Please, Mrs. Burk, if politicians can't abide ratepayers complaining, they shouldn't be in public life. Who else can we take our complaints to?

On Mrs. Burk's allegations of half truths, let me point out just three which occur in her letter.

One: "All property used is owned by Haliburton County" and "in no way will the approaches infringe on any front yard." The truth is, Mr. Editor, that Haliburton County has already seized the land which is part of our front yard in Ingoldsby. They can do this to any

ratepayer at any time. It's called expropriation. A hearing to deal with this case is still outstanding.

Two: Mrs. Burk alleges in her letter to you that "the letter from Mr. Kevin Walters, a professional engineer who has examined the site and the current plan, directed to the Federal government. Please print it if you wish, in the interest of truth. See especially paragraph two where a 25 per cent span reduction is noted by this professional engineer. The rip rap fill will "unquestionably cause a boating hazard." Mr. Walters also comments.

Three: Mrs. Burk alleges there will be "good access" to the Ingoldsby community beach and "adequate swimming area." At my cost, Mr. Editor, I have secured a copy of the new bridge plans from the Registry Office and had them copied for you. I invite you to print them in the

interest of the truth. Anyone can clearly see that the rip-rap fill will cover and obliterate the community beach beside the old bridge and spill out into the existing boat channel which hugs this east side of the channel.

I would encourage you to print this plan of the bridge as a news item in this issue of your newspaper. So people can plainly see what fate has in store for the Ingoldsby beach. Local people need to have this information before the March 20th public meeting on the bridge plan being held by county council.

Mrs. Burk, it seems to me, was as much in favour of the last and rejected bridge proposal. County council in its wisdom saw fit to recall the plan and have it modified. That was the plan that didn't allow adequate headroom under the bridge for boats to pass.

I like to think that some

small part was played in this useful plan modification by what Mrs. Burk calls my "constant complaining" about it.

Now I hope I can help county council make a decision to spare our community's sand beach.

Joe Curtin, Ingoldsby & Toronto.

EDITOR'S NOTE: The following is the letter referred to by Mr. Curtin in the letter above. Space limitations prevent us from publishing the map referred to by Mr. Curtin. Copies of the map are available at the Land Registry office in Minden or the copies supplied by Mr. Curtin may be viewed at The Times office.

Dear Sirs:

Re: Ingoldsby Bridge

I have viewed the

(more on page 6)

Navigable Waters Plan pertaining to the above bridge as deposited in the Haliburton Registry Office. I am pleased to see that the existing vertical clearance will be maintained with the proposed new structure. However, I would like to reiterate some other concerns which I expressed to your department regarding the original proposal, which are still pertinent.

The 40 degree skew of the proposed 84' span results in a horizontal clearance of 61' plus which is a reduction from the present width of 80' plus. This in itself, I suspect, would not cause boaters significant difficulties. My main concerns relate to the fact that some of the encroachment occurs in or very near to the narrow, navigable portion of this channel and that rip rap

Quilts, pictures provide historical perspective

Quilts, paintings of quilts and quilts fashioned from wood provide a variation on a theme at the current exhibition in the Rails' End Gallery in Haliburton.

The meticulously crafted quilts that adorn the walls of the gallery are the result of the combined efforts of the Halton Quilters Guild. Working in a variety of shapes, sizes and styles, the guild has created a contemporary exhibition that pays homage to an ancient artform. Beside each quilt is a description of the materials used and of the historical significance of the style.

The display of paintings is the work of the award winning artist F. Eleanor Johnson from Waterdown.

The delicately shaded watercolours combine an intimate knowledge of the quilters art with a whimsical perspective. A Monarch butterfly hovers unfettered over a butterfly quilt hanging on a clothesline; multicoloured leaves touch down on a quilt depicting autumn colours; grandmother's garden is transformed into a quilt that envelopes the farmhouse; each painting captures a

Alan Skeoch reminisces during the opening of an exhibition at the Rails' End Gallery on Saturday. The show, which combines watercolours, quilts and wooden pictorials, continues until March 30.

specific style of quilt and accentuates the innate beauty of the work.

The quilts that historian Alan Skeoch has created are not designed to be draped across a four poster bed, instead they are wooden pictorials which recreate the

life and environment of rural Canada.

Skeoch, the head of the History Department at Parkdale College in Toronto, is the author of various books dealing with Canadian history and is also a collector of antique farm

machinery.

Skeoch travelled from his home outside Port Credit to attend the opening of the show at the gallery on Saturday. Before presenting a descriptive and, at times, emotional discussion of his work, Skeoch emphasised

that his works are folk art or the expression of beauty by an untrained artist.

He noted that his original pieces were created for his wife and family, but that soon there were requests from friends and associates to produce more of the wooden quilts.

The simple, uncluttered pictorials depict actual farmhouses, barns, general stores and blacksmith shops that stood for years in rural Ontario settings. Some of the buildings are still intact but unfortunately others were demolished to make way for commercial development or simply fell into disrepair.

The materials that he uses

in the pictorials, wooden lathe, pieces of barn board and snow fencing, have been reclaimed from some of the properties that were destroyed and after being cut, sanded and varnished, were mounted in wooden frames, forming a visual reminder of their origins.

Beside one quilt entitled "Full Circle" is a framed magazine article written by Skeoch that, in describing the passing of an old friend, also alludes to the passing of an era.

Like the quilts and the delicate watercolours that hang on the walls of the gallery, this simple story and the wooden pictorials serve as a reminder of our heritage.

A report recently received from Laventhol and Howath indicates that occupancy levels and room revenues increased in nine of the ten surveyed areas. Occupancy level increases ranged from one to nine percentage points and room revenue increases ranged from 2.9% to 19.9%.

Toronto's 19.9% increase in room revenue stemmed from a 9 point rise in occupancies and a 5.7% increase in average room rates to 73.63 from 69.93 elsewhere in Ontario. However, showed a 2 point increase in occupancy to 63% and a 4.3% increase in average rates to \$54.08 from \$51.84 for a 7.8% increase in room revenue.

1985 summer rates

For our members who do not have their rates set and published for 1985, please bear in mind the calls are coming in from people who are planning their vacations now. If we do not have your rates available, it places us at great disadvantage in competing for our share of the vacation market. If you have not sent us your brochures with rates sheets, please do so immediately.

Notice of fish stocking

We have received a notice

of fish stocking from the Ministry of Natural Resources for selected lakes in the Minden District. The ministry is proposing to stock F-1 splake into 25 lakes in the area. The stocking will take place between 1985 and 1988. The stocking effort is being made in order to provide additional angling opportunities for local and resident anglers. The lakes to be stocked are presently underutilized by trout.

F-1 splake is the first generation fish species resulting from crossing a female lake trout and a male brook trout. This stocking will be used in determining the success rate of this fish, as well as the potential for future splake stocking of small inland lakes.

The project is being planned and implemented under the Ministry's approved class environmental assessment for fish stocking in new waters. A complete list of the lakes to be stocked is available at the chamber office, 286-1760.

Events

Agnes Jamieson Gallery in Minden will have a variety of paintings, funny abstracts and cartoons by George Kovacs.

EMPLOYERS/EMPLOYEES

Contact us about our Career Access Program

This is a program that reimburses the employer for training. It pays up to 85% of the employees wages for up to one year. (Depending on the employees individual circumstances).

As well, if you are a non-profit or charitable organization, your "other costs" (materials, office supplies etc.) can be paid for under the CAREER ACCESS PROGRAM.

For more information phone 457-1316.

PeeWee soccer club meeting

In preparation for the upcoming soccer season, an organization meeting will be held Monday, March 18 at 7:30 p.m. at the municipal office in Minden.

The meeting will be held to form an executive committee of the Minden Youth Soccer Club.

A peewee team has been registered with the Ontario Soccer Association under

the auspices of the Muskoka and District Soccer Association. The Minden peewees team is open to boys and girls 14 years of age and under.

Youngsters under 11 years of age are not being encouraged to register with the team as the age range would be too wide. The Minden peewees will be competing against six other

teams in the league.

If there are enough bantam players interested, a team will be formed to compete in an eight team bantam league.

According to Sonya Holliday-Rhodes, district convenor for Youth Soccer,

the team has been registered as a competitive team but has primarily been formed for youths to enjoy the game of soccer.

Youths need have no previous experience as full coaching will be provided.

letters letters

(from page 5)

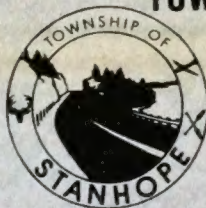

protection is being proposed for this area as well.

Since the channel in this area is very shallow (1 m plus) errant rip rap will unquestionably cause a boating hazard. The large size of the stones proposed will make their subsequent manual removal difficult.

The use of an alternative protection such as gabions would avoid this potential hazard. The encroachment

of the new structure on the channel, and possibly the use of the rip rap as well, could be offset by the clearing of existing rocks which occupy the channel both beneath and immediately downstream of the bridge. This would permit boaters who are presently confined to the south east side of the channel (near the proposed fill) to use the channel more fully. Yours very truly, K. Walters, P.Eng.

CORPORATION OF THE TOWNSHIP OF STANHOPE

PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Stanhope proposes to enact a by-law to stop-up, close and convey to the abutting property owners, those parts of the original allowance for road set out and described as follows:

FIRSTLY: All and Singular those certain parcels or tracts of land and premises situate, lying and being in the Township of Stanhope in the County of Haliburton and being composed of part of the original allowance for road along the shore of Maple Lake, lying in front of part of Lot 21 Concession IV and being more particularly described as Parts 1, 2, 3 and 8 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 3 229.

A COPY OF THE PLAN OF SURVEY as noted may be viewed at the Township of Stanhope Municipal Office during normal working hours.

THE PROPOSED BY-LAW will come before the said council for consideration at its regular meeting at the Municipal Office in the Township of Stanhope on the 10th day of April, 1985 at the hour of 11:30 A.M., and at that time, the Council will hear in person or by his counsel, Solicitor or agent, any person who claims that his land will be prejudicially affected and who applied to be heard.

DATED: February 21, 1985

Gerald C. Bain, A.M.C.T.,
Clerk of the Corporation of the
Township of Stanhope, R.R. 1
Haliburton, Ontario K0M 1S0.

COUNTY OF HALIBURTON LOAD RESTRICTIONS

All County Roads in the County of Haliburton shall be posted and enforced for five tonnes per axle as soon as conditions warrant and signs have been erected.

M. Fearrey,
Chairman.

W.E. Obee,
County Engineer.

THE COUNTY OF HALIBURTON

KASHAGAWIGAMOG LAKE ROAD (County Road #18)

THE COUNCIL OF THE COUNTY OF HALIBURTON PROPOSES TO PASS A BY-LAW AUTHORIZING:

1) The removal of the existing structure on County Road #18, located in Lot 19, Concession 2, Township of Minden being described as M.T.C. site No. 040-0035.

2) The construction of a new box beam type structure in Lot 19, Concession 2, Township of Minden at the narrows between Kashagawigamog and Canning Lakes along with the required approach works of clearing, grubbing, grading, granular base and paving thereof; to provide a two lane structure and approaches.

3) The Municipality herein further authorizes the closing of said County Road #18, South Kashagawigamog Lake Road, on either side of the bridge site during the period of removal of the existing structure and the construction of the new structure.

The Council of the County of Haliburton will hold a meeting at 10:00 a.m. on the 20th day of March 1985 in the County offices, Newcastle Street, Minden, Ontario at which time they will hear in person or his counsel, solicitor or agent, any person who claims that his lands will be prejudicially affected by the by-law and who applies to be heard to the County Clerk by Tuesday, March 19, 1985.

Information with regard to the above proposed work may be obtained at the office of the County Engineer. (Telephone 705-286-1762)

DATED at Minden Township this 18th day of February, 1985.

M. Fearrey
Chairman

W. E. Obee, P. Eng.
County Engineer

Foamblowers secure playoff spot

With only two games remaining in the Minden Men's Recreational League round robin playoffs, the Rockcliffe Foamblowers have assured themselves a berth in the finals after soundly defeating Home Hardware 16-3 on Monday night at Minden arena.

In the other game played Monday, Vasey Real Estate handed Hall's Insurance their first defeat of the playoffs winning the game 8-3.

On Thursday March 7, Vasey was narrowly defeated by Hartwick Construction. Hartwick chased Vasey nearly three full periods never falling behind by more than a goal.

After Vasey took a two goal lead for the first time in the game, Hartwick scored three goals in the last four minutes of play to win the game 7-6.

Rick Hartwick led the way for the winners with four goals and two assists.

Leigh Bull added a pair of goals and an assist and Greig Carpentier rounded out the scoring with a single marker. Assists went to Fraser Rogers with a pair, Rick Mansfield and Jeff Campbell with singles.

Scoring for Vasey were Jerry Campbell, a pair of goals and an assist, Dave Brown, a goal and three

assists, Larry Sawyer a goal and an assist, Brendan Berube and John McAdam with singles.

Assists went to Doug MacNabb with a pair, Charlie Walters and Bern Berry with singles.

An eight goal blitz in the third period gave the Blowers a 16-3 victory over Home in the first game played on Monday evening.

Jim McKelvey was the top goalscorer for the winners knocking in five goals and adding two assists.

Dave Hartwick played another solid game picking up a hat trick and adding eight assists, the highest number of assists for any player in a game this season. Dan Brohm also contributed a hat trick and added an assist.

Other goal scorers were Andy Campbell with a pair and an assist, Sid McKeighan two goals and an assist and Charlie Berube a goal and an assist. Ted Vasey and Dave Lee assisted on four goals each.

Scoring for Home were John Barkwell, a goal and an assist, Doug Rea with a single marker and Dean Hewitt with a single. After losing the close contest on Thursday, Vasey skated to an 8-3 win over Hall's in the second game played Monday.

The game was evenly matched until the third

period when Vasey broke loose and knocked in five goals.

Kevin Hamilton and Larry Sawyer paced the winners with two goals and a pair of assists apiece. Dave Brown also added a pair of markers. Doug MacNabb and Brendan Berube each contributed a goal and three assists. Bern Berry added a single assist.

Scoring for Hall's were Lawrence Loughheed with a pair and Berry Walker with a single. Assists went to Randy Anderson with a

pair, Joe Outram and Casey Cox with singles.

The round-robin playoffs end this Thursday March 14 with two games. At 7 p.m. Hartwick Construction and The Times face off. At 8:30 the Rockcliffe Foamblowers take on Hall's Insurance.

If Hartwick and the Blowers win on Thursday there will be a sudden death playoff game on Monday March 18 between Hall's Insurance and Hartwick Construction to break the deadlock in the series.

Strong finish for Minden Pee Wees

The Minden Peewees may have been eliminated from the regular season playoffs, but the team has performed well in post season play.

Over the weekend the team racked up a pair of wins defeating Cannington 6-1 on Saturday then coming up 8-3 win over Bobcaygeon on Sunday. Kent Taylor led the way in the win over Cannington scoring four goals in a row after Randy Bull and Dave Lee gave Minden a two goal lead.

Darren Sawyer picked up four assists in the win. Other assists went to Randy Bull with a pair and Jaime Dollo with a single.

Goalie Lorne Greer played shutout hockey until Cannington scored their lone goal with only three minutes remaining in the game.

In the game on Sunday in Bobcaygeon, Minden chalked up a 7-0 lead before Bobcaygeon got on board. Behind the three goal performance of captain Kent Taylor, Minden went on to win the game 8-3.

Other goalscorers were Joey Boyle with a pair, Darren Sawyer a goal and three assists and Corbie Kent and Randy Bull with singles. Rob Ackerblade and Dave Lee added single assists.

(from page 4)

the gravel lattice, creating labyrinths of stone and water. Soon, these will become the sheltered incubators which will protect and nourish fish eggs and fry.

Variety restores, these streams will once again be prepared for warmth's spectacular growth of plants, invertebrates and vertebrates. Within weeks, smelt, rainbow trout, pickerel, sturgeon and a host of other fishes will begin their successive wave of spawning ascents on to the gravel beds.

But what of the river's animals; how can these miniscule beasts survive the current ravages? The answer lies in an incredible array of adaptations. Many insects survive as overwintering eggs or pupae, dug in beneath rocks. Others are adapted by shape - like the broad, flat stoneflies, which plaster themselves against rocks. Fish, like darters, use aerofoil shapes to hold them solidly against the bottom. Others find solace in the tiny eddies between the rocks or deep in the gravel.

Spring's melt is, indeed, much more than "threatening, numbing crud." It is a vibrant rebirth - for plants, ponds and waterways.

The next swollen stream you pass deserves a second thought.

Juveniles advance to semi-final

(from page 1)

Barry Boice made it 6-3 on a pass from Bernie Upton to win the game and the series.

In contrast to the earlier games in the series, the game played on Sunday was relatively free of infractions with Minden receiving only eight minor penalties and Erin being assessed eleven minors.

The Monarchs play their first game of the best of five Ontario semi-finals in Godfrey on Saturday, March 16 at 7:30 p.m. A bus will be leaving for Godfrey which is situated about 30 km north of Kingston, at 2:30 p.m. on Saturday.

Fans wishing to travel with the team can do so for a nominal fee. Game two in the series will be played in Minden at 5 p.m. on Sunday, March 17.

Monarch captain Jeff Howe comes within a whisker of scoring during the fourth game of the quarter finals against Erin. Minden lost the game 5-3.

They're Winning Their
Fight For Independence

THE FUTURE IS WHERE WE ALL SPEND THE REST OF OUR LIVES.

JACK is 10 years old. Although he's been paralyzed from the waist down since birth, his bright conversation and fascination with wheelchair basketball tell you a lot about the future he's fighting for.

That future means that Jack is going to have to work hard to fight his disability, and it's a fight he's going to win. Easter Seals helps, but we can only do that with your help. So please. Back a fighter.

JASON is 9 years old. He has only one arm, but he's learning to make the arm that was made for him work very well. Right now he wears out 3 bicycles a year. In his future, he wants to work with his hands, and he tackles everything he does like a true fighter.

Easter Seals helps, but again we can only do it with your help to back a fighter.

CHARMAINE is 9 years old. She's paralyzed from the waist down and has been since birth.

Charmaine has learned to walk with canes, a task she fights for with the spirit of a champion. Ask her what she wants to do when she grows up and she says, "Maybe be a writer."

With your help, Easter Seals can help keep up the fight for this bright girl's future.

BACK A FIGHTER.

WITH EASTER SEALS.

LAST WEEK PAT BATH PAID \$175 for this ad

FOR RENT

FOR RENT: Mountain Park Cottages on Mountain Lake, Haliburton Highlands. 1-4 bedroom housekeeping cottages, safe sandy beach, playground, boat rental. Write RR2 Minden, Ontario KOM 2K0 (705)286-2857.

So why is she smiling?

Pat Bath, who operates Mountain Park Cottage Resort on Highway 35 just north of Minden, has a lot to smile about.

She placed the classified ad above, through The Times in 170 community weekly newspapers across Ontario with a potential readership of 1,064,000. The ad appeared in the classified sections on Wednesday. By 2 00 o'clock Wednesday afternoon, after most papers had only been on the street for a few hours Pat had received four calls. By Monday of this week, she had received 35 inquiries and 13 bookings. The calls are continuing and requests for information are beginning to arrive by mail.

That's why Pat Bath is smiling.

We'd like to help put a smile on your face too. You can reach 170 papers across Ontario for \$175 like Pat did or target your market by using the four regional areas. We can also help you reach potential clients in all ten provinces or Canadians right across the country with access to 532 community newspapers.

For more information on how you can be smiling too

Steve places sixth in world series snocross

Steven Stewart of Minden finished in sixth place at the World Series Pro Snocross held in Owen Sound on February 24. The race was the final event of the 1984-85 racing season.

It was the largest snowmobile competition in Canada and is only second in importance to the World Series race held in Eagle River Wisconsin.

Over 200 racers from the United States and Canada took part in the event.

Driving the Prentice-Berry Race Team Skidoo, Steve placed third in the qualifying heat on Saturday. Steve was also running third in the final race when an accident forced a restart of the race.

In the second running of the final heat, Steve and another rider collided and were forced off the track. Steve had to start at the back of the pack with only two laps to go.

He was able to get by several drivers but the checkered flag came up before he could catch the

leaders.

Ken Avann of Keswick finished in first place. Avann placed second behind Steven at the Snocross event in Minden during the Winter Carnival.

Although Steve was disappointed in the results of the race in Owen Sound, he is generally satisfied with his showing this past season.

After driving a Polaris in his first year of competition, Steve joined the newly formed Prentice-Berry Race Team in December and competed in seven races against the top drivers on the circuit. He consistently placed near the top and impressed both his competitors and the fans.

During the past several years, Steven has remained involved in racing through the summer, competing in ATC races throughout southern Ontario. He is not certain whether he will be on the circuit again this summer but is looking forward to competing again next winter in the snocross and oval track events.

Steven Stewart of Minden ended the season with a sixth place finish at the World Series race held in Owen Sound. In his first year with the Prentice-Berry race team Steven placed in the top three in several races and was the overall winner of the Pro Snocross and Expert Snocross finals during the Winter Carnival in Minden.

letters letters letters

Editor:

While returning last night (March 6) from a public meeting of the Victoria County Peace Project in Fenelon Falls, I was reminded again of an unfortunate contradiction in our world. At that moment I was thoroughly fortunate enjoying the picturesque winter landscape of Victoria - Haliburton counties as best seen under a full moon. A few minutes earlier I saw on film how most forms of life and earth's civilization can be obliterated by the use of 10% of the world's nuclear arsenal.

Dr. Paul Craig, a Peterborough physician, and a member of the Physicians for Social Responsibility, gave an audio-visual presentation entitled "The Last Epidemic." The video tape arose out of a world conference (USA 1980) of medical doctors, and it has been shown in different parts of the world, including the USSR. Both the film and Dr. Craig were indicating that in the event of a nuclear conflict, no authorities (such as medical and political) will save us from annihilation immediately and within a short time.

During the discussion period it was particularly interesting to hear the remarks and to sense the frustration of most of us -

ordinary laypersons. One man in particular seemed to be saying: "...but we have to depend on the experts...to get us out of this mess." In response, however, experts are saying that due to the complexity of the arms build up, they themselves are forced to rely on computers which are known, now and then, to malfunction. Away in the background, one could hear - almost like a whisper - "Remember that the abolition of slavery and the introduction of women's suffrage were the results of grass-roots activities, before the experts and others in authority accepted them?"

When enjoying the refreshments after the meeting it was encouraging to hear such positive comments as:

(1) "In a visit (with other Canadian farmers) to farms in Russia, I was moved by the friendliness and smiling faces of the people."

(2) "Consideration is being given to twinning our town with a town in Russia."

(3) "Understanding and peace will not come through talk only; we (at the grass roots level) must be involved in basic developmental projects anywhere in the world."

We recognize that in today's society, experts in many fields (science, religion, politics, etc.) are essential. However, it is naive for lay people to rely

on experts alone to protect and preserve our earth. Obviously all of us must think and act now responsibly in working toward peace and survival in our world. Billions of our dollars will continue to be spent, by experts and others in special authority, for our destruction, unless and until we persist in redirecting our resources into preserving life and development.

We, the ordinary citizens of the world, must make it perfectly clear to those in authority that we believe we can no longer afford literally to have enemies, especially in mass. No doubt, we shall continue to dislike the thinking and actions of certain individuals and groups, but world wars, as previously known, are now obsolete. The conventional armed forces of the superpowers are apparently heavily reliant on nuclear power. To apply this dynamic in any international conflict will not mean war. In such an eventuality there would be no winners or losers - not even the leaders on either side would survive their bunkers - and no heroes or heroines to decorate. Our beautiful earth will have experienced the irreversible consequences of a catastrophic holocaust.

Ingoldsby

Employment programs

- by Bill Scott, MP -

On February 6, the Hon. Flora MacDonald, Minister of Employment and Immigration, and the Hon. Andree Champagne, Minister of State for Youth, announced a \$205 million summer employment program for students which will create up to 95,000 jobs this summer.

Challenge '85 is designed to provide career/learning-related summer employment for young people moving through the educational system. The program is divided into six components which are:

1. Summer Employment/Experience Development (\$163 million)

The Canada Employment & Immigration Commission (CEIC) will provide incentives in the form of wage subsidies to stimulate the creation of incremental, career development opportunities for students. First priority will be given to jobs providing:

Career/Study Related Experience and Training:

The private, municipal and non-profit sectors will be challenged this summer to create additional openings for students to work at tasks that are clearly related to their course of studies and/or career plans. Opportunities will be open to secondary students enrolled in vocational streams as well as to post-secondary students. Proposals from employers will be processed on a first, first serve basis.

Second priority will be given to jobs providing:

Practical Work Experience and Learning:

These assignments will

provide students with the opportunity to gain valuable work experience aimed at preparing them for their future labour market participation. Application forms for this program will shortly be available at the Employment Development Branch office of Employment and Immigration Canada or Canada Employment Centres/Canada Employment Centres for Students; forms may also be available in provincial government offices, particularly in those provinces where joint federal-provincial programs are operating.

2. Student Entrepreneurs (up to \$30 million in loans; up to \$7.5 million actual cost):

The entrepreneurial potential of students will be developed this summer by supporting provincial initiatives which provide them with loan guarantees or loans to start summer businesses.

3. Federal Departments and Agencies - Career Related Jobs for Students (\$24.2 million)

Federal departments and agencies are being challenged to create career related summer jobs for students from within their existing financial resources. As a transition measure, \$10 million is being made available to assist them in meeting student hiring goals. Two measures also being provided for are:

Cadet and Reserve Training Programs (\$13 million)

Operated by the Department of National Defence, these programs provide

students with training and work experience in a monitored environment under responsible leadership.

Supernumerary Special Constable Program (\$1.2 million):

Operated by the RCMP, this program hires students as special peace officers and provides training and experience in law enforcement.

4. Work Orientation Workshops (\$0.5 million)

Pilot projects in the form of summer workshops will provide disadvantaged in-school youth and potential school-leavers with guidance on their future participation in the labour market.

5. Canada Employment Centres for Students (\$13.6 million) and Native Internship Program (\$2.4 million):

Canada Employment Centres for Students, part of the national Hire-A-Student campaign, will operate again this summer to provide students with advice and a referral service to help them find summer jobs. The Native Internship Program is designed to increase summer employment opportunities to Native students in various facets of

Employment & Immigration operations allowing them to gain an understanding of how the federal bureaucracy works.

6. Business Drive for Jobs (\$1.3 million):

An initial effort will be made this year to encourage leading corporations and business organizations to promote the hiring of students.

This Week On T.V.

The listings are supplied by the T.V. stations. While every effort is made to ensure their accuracy, last minute changes may be made by the stations.

NOTICE
Stanhope Recreation Committee is offering a
spring course in hunter safety. The course is
compulsory for anyone under 21 years of age and
requiring a gun licence. This course may also be
beneficial to those new hunters wishing to make
1985 application for moose and/or doe permits.

Course times March 18, 20, 22, 25 and 27, 1985. 7:30
p.m. to 10:30 p.m. Location: Stanhope Firefighters
Community Hall. Course Fees: \$25.00 (includes
new text). For further information please call 489-
2379.

This Week On T.V.

The listings are supplied by the T.V. stations. While every effort is made to ensure their accuracy, last minute changes may be made by the stations.

by Bert Harrison

Dear readers:

We think the 'flu is easing off if we say it quick. Some are getting better, others still quite sick.

We had a nice service in the chapel Sunday night. A number of visitors there. Harold Thompson read the lesson, Ruth played the music, Mary Burgess led in prayer. Rev. Burgess has been speaking about the Prodigal Son, the lost sheep, but tonight spoke very interestingly on the finding of the widow's mite.

Alfred Richardson has a birthday this second day of March, congratulations Alfred, we would like to say.

John Stewart has gone to Toronto to have another try to see if they can do something about his failing eyes.

We're having a real snow storm on this fourth of March day, I guess it will be a while yet before all the snow goes away.

We residents need not worry for we are truly blessed, with good food, good nursing care and a nice warm place to lay our heads here at Hyland Crest.

An inspector came in here to look things over. Talking to him later, he seemed much impressed how everything was operating here at Hyland Crest. Instead of starting home, he stayed here where it was nice and warm.

Tuesday, Robert Wunker of Minden Gospel Church who lives in Miners Bay held a very interesting service in the chapel and our own Doris Robertson, the music she did play. Thank you both we would like to say.

Tuesday afternoon Doris showed us two movies which were very interesting. We wouldn't mind seeing them again, "Island of Coral" and "The Bam Man".

Tuesday night Daryl Crowe came along and

who lives near Minden town, comes along when it's his turn and seldom lets us down.

The ladies in the room next to me Edna Cowan and Lily Hogg are behaving quite well, of course if they weren't, I would tell.

Thursday afternoon the ladies from St. Peter's Church came down from Maple Lake, brought all kinds of goodies, cheese and crackers and all kinds of cake. To pay them for coming down Thursday afternoon Doris and I played them a few lively tunes.

We are sorry to report that Grace Coburn who comes in each Friday afternoon to lead us in a sing-a-long had a real bad fall and got all bruised up. We wish her the best and hope it won't be too long until she is back with us again.

It has been a hard winter on the residents here, they will be glad to see spring.

Sorry also to report that Edith Moon is in Minden hospital. We hope it won't be too long until she is feeling better and be with us again.

We would like to thank Lewis and Jean Stevens for coming Thursday night, calling the bingo numbers and doing things just right.

Friday night our entertainers came, Payne, Deacon, Burch and Smith and all kinds of instruments to entertain with. They entertained us royally with music and in song, Eldon played his banjo, then they played goodnight ladies, it's time to go.

There may be a Scot who doesn't love the thistle. There may be an Englishman who doesn't love the rose.

But show me a true son of old Ireland, who doesn't love the land whee the

Carlotta Can-Can, Ms. Polly Phosphate, Alice Algae, Grimy Gertie and Miss Ciggy Boo were just a few of the stars at the 'Pollution '85' fashion show presented by members of Minden U.C.W. on Wednesday. The satirical revue offered a tongue-in-cheek commentary on the environment of our contemporary society.

Did you know?

by Bambi Gilder

Did you know...that if you qualify, you may get a loan of up to \$10,000 to repair and improve your home and as much as \$5,000 may not have to be repaid?

This loan is provided by Canada Mortgage and Housing Corp. under its Residential Rehabilitation Assistance Program (RRAP) and your County Information Centre has taken over the position of

being the RRAP delivery agent for the municipality of Dysart et al.

The portion of the forgivable loan depends on your adjusted family income and continued ownership and occupancy of the property. The purpose of this program is to prolong dwelling life, provide lower heating and maintenance costs and to make your home more comfortable.

You may qualify if your

property is deficient in at least one of the following: structural soundness, electrical system, plumbing, heating system and fire safety.

The program may be available in other municipalities in the county. Contact your township

office for more details.

If you feel that you may be eligible for this program, drop in to our office anytime from 10 a.m. to 4 p.m. weekdays. Our office is located in the Drag River Municipal building (across from Emerson Lumber) in Haliburton.

SELLING YOUR PROPERTY!

Everyone in Real Estate wants to list your property - Right? Well we are a little different. We would like the opportunity to "MARKET" your property. There is quite a difference.

After all, next to the Missus, the family and the pet, it is your most important and prized asset - Right? And while your property is being "MARKETED", I bet you would like to know what's going on - Right?

That too, is where we are different. We keep you informed by written monthly reports, more often if needed. Owners like that, I know, they have told us many times.

We would also "MARKET" your property on the Haliburton Multiple Listing Service, whereby over 70 salespeople would have the opportunity to show and sell. (Optioned at no charge). Just like the big cities - Right?

Throw in our regular newspaper and brochure advertising, being open 7 days a week spring thru fall, plus your property prominently displayed on our wall photo section and finally, top it off with my 14 years of experience and you will "know" that your property is in good hands.

So give us a call today. Get the jump on Spring!

around the county town

Call 286-1288 — 9 a.m. - 4 p.m.

Minden Agricultural Society will meet in the Minden Council chambers at 7:30 p.m. on Wednesday, March 13.

Card party winners at Club 35 on Monday evening were: most lone hands - Merv Bunker, high lady - Olive Daniels (who also scooped up the 50-50 draw) while high man was Walter Ackerblade. Other winners were Eleanor Bunker, Jack Weekes and Art Verbaan.

The Women's Institute will meet next Wednesday March 20 at 2 p.m. in the library/cultural centre where slides and a movie will be shown.

The final card party for

the season held in St. Paul's Anglican church hall was held Thursday. Winners at the last games were: most lone hands - Irene Houghton while other winners were Jeanne Sears, May Spence, Joe Dollo and Sid Rowe.

Euchre card parties will begin March 14 (Thursday) at the Library/Cultural Centre for the museum fund. Prizes, as usual, will consist of snacks and Wintario tickets. Games begin at 1:30 p.m.

A St. Patrick's card party will be held March 15 at 7:30 p.m. at Hyland Crest Senior Citizen's Home in Minden. Refreshments will be served. Price \$1. Prizes will be

awarded for euchre, bridge and cribbage.

FREE SKATING will take place at Minden arena from 2-4 p.m. on Sunday March 17 and Sunday March 31. Come out and enjoy your arena.

Visiting with the Lacey and Simpsons last weekend were Mike and Jean Cruikshank and Jim. Jo

Crystal and Joshua Oatman all from Shelburne.

Don't forget to stop in at the Agnes Jamieson Gallery and see the superb exhibition of paintings etc., by George Kovacs, Margaret Wade and Jansje Bowen. The exhibition will continue until March 30 and the gallery is open Monday through Saturday from 10 a.m. to 5 p.m.

What price profit

Two smoking cinders where they lay
Cremated as they slept
And through the stillness one might hear
What remained and wept.

Who were these ghouls now drooling at
The sight that met their eyes
Such room sir for investment
A vulture's Paradise.

What rationale can expunge
These guilty bloody stains
What happened then can happen now
The motive still remains.

W. Watson.

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Some have hidden words or sayings, some do not. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun.

Q: What did one angel say to the other?

A: Halo there!

Q: Why are people born with two eyes and one tongue?

A: So they can see twice as much as they say.

Q: What animal has the smallest appetite?

A: A moth. It just eats holes.

Q: What book contains more stirring pages than any other book?

A: A cook book.

Q: What is a volcano?

A: A mountain with heartburn.

Q: What two words have the most letters in them?

A: Post office.

Pee Wees defeat Beaverton

The Minden Tri-Country PeeWees dealt Beaverton an 11-0 shutout in a game played Sunday at the Minden arena.

Jason Scarlett led the attack for the Minden team scoring four goals and assisting on two others. Steve Schrader picked up a hat trick for the Monarchs and also added an assist.

Mike Muli scored two goals, one unassisted, while Jamie Walker also picked up a pair and an assist. Derrick Moore proved to be a great help to the Minden effort, assisting on five goals. Jarett Gentle picked up a single assist.

Michelle Maybee, a grade 5 student at Archie Stouffer Elementary School accepts an award from Helen Johnson representing Branch 129 of the Royal Canadian Legion. Michelle received the trophy for her winning entry in the annual Legion poster contest.

BIRTHS

HEISE: Lorne and Robin are pleased to announce the arrival of **Brent Christopher McLean** on March 4, 1985 at South Muskoka Memorial Hospital, Bracebridge, weighing 6 lbs 1 oz. Proud grandparents are Ruth Heise of Bobcaygeon, Lee and Harry Weber of Scarborough and great grandmother Edith Taylor of Oshawa. Many thanks to Dr. Kent Phillips and the nursing staff who were a great help.

CARD OF THANKS

I wish to express my deep appreciation to my family, relatives, friends and neighbours for the many kindnesses and support received following the death of my mother, Ethel Boice at Hyland Crest. For the floral tributes and donations in her memory, for telephone calls, cards and food received. I am deeply grateful. A special thanks to the Rev. Clyde Westhaver and the Rev. George Elliott for a fitting Christian Burial Service, to the Maple Lake United Church Women, to all the employees of Hyland Crest for their loving care of my mother over the past eight years and to Gord, Donna, Cameron and Kirsten of the Monk Funeral Home for their friendship and services.
Muriel Welch

JIM WILSON wishes to thank his neighbours, friends and members of the ladies and men's seniors curling groups for their kind words and condolences on the death of his wife.

HELP THE KIDNEY FOUNDATION IN THE FIGHT FOR LIFE.

IN MEMORIAM

In loving memory of a dear mother and grandmother, **BERTHA PORTER**, who passed away on March 15, 1984.

In tears we saw you sinking.
We watched you fade away.
Our hearts were almost broken.
You fought so hard to stay.
But when we saw you sleeping,
So peacefully free from pain
We could not wish you back
To suffer that again.

Sady missed and always remembered by son Bill, daughter in law Darlene and grandchildren Joey and Corey.
